Dear Sir, Madam:

With full confidence and enthusiasm, I would like to apply for the job as Manager Backend Development in your bank. I have known this information through your announcement in Prince Bank Career telegram channel. I am interested in your bank, and I would like to bring my considerable experience and skills to your bank.

Having recently finished almost 5-year in manage and develop financial system after completing my Bachelor degree of Information Technology from Royal University of Phnom Penh, I am ready to start the next chapter in my life. So, I was thrilled when I came across your job post in search of IT candidates. With my present employer I am responsible for Maintenance Core Banking System at DGB Bank and BNK MFIs. Providing the best product service and stability of service as well as perform with team is my significant role. I work closely with business team to make operation service more effective and given new product services in order to get into market. Behind all of these achievements, there is a well prepare of team management. I gather requirements and issues from business team, analyze and provide both business solution and technical to team to develop in system. We collaborate each other well to go with the plan.

I possess excellent communication skills and can liaise effectively with both clients and work colleagues. Other strong points include an ability to work as part of a team or individually, multi-task, prioritize and work to deadlines under pressure. Therefore, I certainly hope that you will consider me for the vacant position. Finally, I would be delighted if you give me an opportunity to talk about further information. I will be available for an interview any time at your own earliest convenience. I am looking forward to hearing from you as soon as possible. Thank you in advance.

Best Regards,

Tit Vandy

TIT VANDY
